

Be the best you can be!

Week beginning Monday 29<sup>th</sup> June 2020

Year 4

### Literacy

Last week you read 'Licked' by Paul Jennings. This week try to write a story 'with a twist' like Paul Jennings does. You could use 'Licked' as a template – what other tricks could a child do to wind-up their parents?!

### Numeracy

In numeracy you would have been learning about converting between analogue and digital times.

Look through the presentation and then complete the activity sheet and time cards activity. There is also a maths mastery PowerPoint and activity challenge if you're feeling brave!

### Spellings

Summer week 10:

Difficult, Quarter, Suppose, Minute, Complete, Regular, Continue, Through, Women, Position, Guard, Mention

Miss Lloyd's group should be learning the following words:

Endless, Useless, Careless, Needless, Homeless, Stainless, Worthless, Breathless, Doubtless, Countless, Reckless, Fearless

### Science

Each week this half term we will be learning about a famous scientist or inventor.

This week we are going to learn about Thomas Edison.

Read the presentation about him and then complete the activity.

### Thematic

This week we would have been learning about the biggest films of each decade since 1950. Print out the 6 film decade sheets and try to put them in order. How many of the films have you heard of or seen?

### Art and DT

Marketing and graphic design are both popular career paths. People get paid a lot of money to design film posters that entice people to go and watch a film – a good movie poster could be the difference between a film doing well or not!

Create a new movie poster for a film you have seen – make it as engaging as possible.
