

- 1) Complete the table using Roman numerals, numbers and words.

Roman Numeral	Number	Words
		seventy
	9	
XI		
XXXIV		
	0	

- 2) Write each Roman numeral as a number and circle it on the hundred square. The first one has been done for you.

X = 10

V = ____

C = ____

L = ____

IV = ____

XCIX = ____

XL = ____

LXXX = 80

XIII = ____

XLIV = ____

LXXV = ____

XXXVI = ____

XXIX = ____

XC = ____

1	2	3	4	5	6	7	8	9	10
11	12	13	14	15	16	17	18	19	20
21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40
41	42	43	44	45	46	47	48	49	50
51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100

- 3) Use Roman numerals to complete the number sequences.

6	7			10		
---	---	--	--	----	--	--

		LXXX	LXX	LX		
--	--	------	-----	----	--	--

2) Explain the strategies that you used to solve this problem.

- 1) Octavia has part of a hundred square. Circle the mistakes. Can you explain why each one is wrong?

LVI	VXVII	LVIII	LXI
LXIV	LXVII	LXVIII	
LXXVI	LXXVII	LXXVIII	
LXXXIV	LXXXVI		

- 2) Here is another part of the hundred square. Fill in the missing Roman numerals.

LVI			LIX
		LXXVIII	

- 3) Magnus has written the number 94 using Roman numerals. Can you explain his mistake? What is the correct way to write it?

LXXXXIIII

- 1) Octavia has part of a hundred square. Circle the mistakes. Can you explain why each one is wrong?

LVI	VXVII	LVIII	LXI
LXIV	LXVII	LXVIII	
LXXVI	LXXVII	LXXVIII	
LXXXIV	LXXXVI
