

New Discovery

I can design my own new plant and explain how it lives and grows.

Make notes about your plant.

How do the roots take in water?

How do the leaves collect light?

How does the stem help your plant stay upright?

How does the flower attract insects to make seeds?

How do you care for your plant?

Draw a picture of your new plant in this box. Make sure you draw the roots, stem, leaves and flower.

New Discovery

I can design my own new plant and explain how it lives and grows.

Make notes about your plant.

What part of the plant takes in water? How does it do this?

How does the plant collect light?

Draw a picture of your new plant in this box. Make sure you draw the roots, stem, leaves and flower.

How does your plant stay upright? What part of the plant does this?

How does your plant make seeds?

How do you care for your plant?

New Discovery

I can design my own new plant and explain how it lives and grows.

Make notes about your plant. Make sure you explain how the plant gets everything it needs to grow healthily and how it makes seeds for new plants.

Draw a picture of your new plant in this box. Make sure you draw the roots, stem, leaves and flower.

How do you care for your plant?
