9. Why do you think there were arguments amongst members of the Apple company?

Children's own responses, such as: I think that there were argument amongst members of the Apple company because they were worried about not making any money and they probably all had different ideas about what they could do to help them sell more computers.

10. How do you think the Apple company became so successful?

Children's own responses, such as: I think that the Apple company became so successful because they invented new technology that people wanted and it took the other companies a while to catch up so they didn't have any competition.
