

5TH DECEMBER 2025

We have officially begun the countdown to Christmas this week, starting off with an assembly about advent, which refers to the preparation and anticipation leading up to Christmas. Mrs Glasby, who is recovering well from her knee replacement surgery, couldn't resist popping in at the end of last week to direct the rest of the Premises Team to help make the hall look lovely and 'Christmassy' in readiness for the start of December—thank you all!

The family of the gentleman who fell ill on site yesterday have asked us to pass on that he is currently in hospital recovering. Thank you again for bearing with us whilst we made sure the children were all collected safely.

Derby and Derbyshire Parent/Carer Voice are asking parents of neurodivergent children for some feedback on any support you have needed for mental health. Please see page three of the newsletter for more information. The link on the page is not live but you can access the consultation by clicking [here](#)

Remember that **Wednesday 10th December** is Christmas Dinner and Christmas Jumper Day—children may wear anything 'Christmassy' along with their normal school uniform if they do not have a Christmas jumper for a **donation of £1 please for Save the Children**.

Please refer to the guidance below when deciding whether to send your child into school with winter ailments over the next couple of weeks: this will help keep everyone as germ-free as possible as the holiday approaches!

HSC Public Health Agency

Do I need to keep my child off school?

Chicken Pox At least 5 days from onset of rash and until all spots have crusted over	Conjunctivitis No need to stay off but school or nursery should be informed	Diarrhea & /or Vomiting 48 hours from last episode	Respiratory Illness (e.g. colds & flu) Can return when no longer have a high temperature and well enough	Glandular Fever No need to stay off but school or nursery should be informed	
Hand, foot & mouth No need to stay off if well enough, but school or nursery should be informed	Impetigo Until lesions are crusted & healed or 48 hours after commencing antibiotics	Head Lice No need to stay off but school or nursery should be informed	Measles 4 days from onset of rash	Mumps 5 days from onset of swelling	
Scarlet Fever 24 hours after commencing antibiotics	Scabies Until after first treatment	Slapped Cheek No need to stay off but school or nursery should be informed	Threadworms No need to stay off but school or nursery should be informed	German Measles (Rubella) 5 days from onset of rash	
			Tonsillitis Can return when no longer have a temperature and well enough, school or nursery should be informed	Whooping Cough 48 hours after commencing antibiotics	

Use this guide to find out when they should stay off, and when they can go back if they are well enough to do so.

Kind regards,
Mrs J Hill

Christmas Events

Please remember to keep an eye on the dates in the calendar below in the run up to the holidays so that you don't miss anything! We will send out reminders on Parent App and on Teams when we can to help and there were more details about some of these events on last week's newsletter which can be found on the app if you missed it!

Neurodiversity and Mental Health Parent Carer Survey

We need your voice!

We're working with Derby and Derbyshire ICB on a project to improve mental health support for neurodivergent children and young people.

If you're a parent carer of an autistic, ADHD, both (dual diagnosis), or other neurodivergent child who has had concerns about mental health or needed support, please share your experiences.

Your feedback will help us understand what works, what doesn't, and what needs to change.

Every response matters and helps us push for real improvements in SEND services across Derbyshire.

**For more information and to complete the survey
